

# ANTI - RAGGING

## Awareness Programme 2024

Ragging is a serious offense that violates the dignity and respect of individuals. This Anti-Ragging Awareness Week, we are committed to fostering a safe and inclusive environment for all students. Through a series of events and initiatives, we aim to educate and empower our community to stand against ragging, promote kindness, and build a culture of respect and support. Let's work together to create a campus where everyone feels valued and protected. Join us in saying "No to Ragging" and "Yes to Respect"!
