

3M invites you to a workshop on **The Power of MBT: Precision-Driven Advancements in Orthodontics**

by
Dr Akshai Shetty .

Cohosted by 3M

Date:

25th November 2024

Time:

9:00 am - 3:00 pm

Venue:

Yenepoya Dental College

Abstract

Over the past decade, orthodontics has witnessed remarkable advancements that have expanded the range of treatable conditions within traditional practice. These innovations, driven by the complex interplay of factors behind malocclusions, have broadened treatment possibilities and improved outcomes.

Orthodontics doesn't rely on a one-size-fits-all solution; instead, it's the synergy between modern technology and traditional techniques that has enhanced treatment effectiveness, particularly for complex malocclusions. The MBT system stands as a prime example of this harmonious integration. With its adaptable and versatile design, MBT aligns seamlessly with contemporary innovations, offering comprehensive solutions for diverse orthodontic cases.

This collaborative approach not only improves treatment results but also gives orthodontists a more versatile toolkit, enabling customized care tailored to each patient's needs. It's inspiring to see these advancements continue to shape the field, making orthodontic treatment more effective, precise, and accessible than ever before.

Program Schedule

9:00 am – 9:30 am –	Inauguration and breakfast
9:30 am – 11:00 am –	Lecture 1
11:00 am – 11:15 am –	Tea break
